Arkansas Fiscal Notes

January 2012

YEAR-TO-DATE REVENUE SUMMARY

Year-to-date Net Available General Revenues totaled \$2,800.4 million, \$78.3 million or 2.9 percent above last year and \$42.8 million or 1.6 percent above forecast.

Among major revenue categories, both individual and corporate income taxes are above forecast and sales tax collections are down relative to forecast. The key components of individual income tax are on forecast or ahead of forecast for the year, including withholding tax and estimated payments. The sales tax results improved in January relative to forecast, but year-to-date results reflect a combination of generally weak retail sales earlier in the fiscal year and adverse one-time comparisons in business transactions in the first two months of the fiscal year. Offsetting some of the positive factors is a large increase in corporate refunds earlier in the year and recent increases in individual refunds in January.

Year-to-date Gross General Revenues totaled \$3,288.7 million, an increase of \$120.6 million or 3.8 percent above last year and \$60.3 million or 1.9 percent above forecast.

Net General Revenue Growth. Net general revenues are defined as gross general revenues less individual and corporate income tax refunds. For the twelve-month period ending in January, net general revenues totaled \$5,254.5 million and increased at an annual rate of 5.6 percent. One year ago, the net general revenues increased by 0.5 percent.

ANNUALIZED RATE OF GROWTH IN NET GENERAL REVENUES

Year-to-date Individual Income Tax Collections totaled \$1,553.9 million, an increase of \$65.5 million or 4.4 percent above last year and \$38.7 million or 2.6 percent above forecast. Individual withholding increased 3.3 percent compared to last year.

Year-to-date Individual Income Tax Refunds totaled \$86.8 million, an increase of \$13.3 million or 18.1 percent above last year and \$9.9 million or 12.9 percent above forecast. Amounts above forecast in refund categories detract from net available revenue.

Year-to-date General Revenue Corporate Income Tax Collections totaled \$230.0 million, an increase of \$37.3 million or 19.4 percent above year earlier levels. Collections were \$37.1 million or 19.3 percent above forecast.

Year-to-date Sales and Use Tax Collections totaled \$1,240.0 million, an increase of \$11.7 million or 1.0 percent above last year. Sales tax collections were \$26.9 million or 2.1 percent below forecast.

Combined General and Special Revenue Corporate Income Tax Collections. For the twelve-month period ending in January, general and special net corporate income taxes totaled \$397.2 million and increased at an annual rate of 20.2 percent. One year ago, corporate income taxes decreased at an annual rate of 14.3 percent.

JANUARY REVENUE SUMMARY

January Net Available General Revenues totaled \$460.9 million, \$1.0 million or 0.2 percent above last year and \$0.6 million or 0.1 percent above forecast.

Growth was above forecast in corporate income tax collections and sales and use tax and slightly below forecast in individual income. Individual withholding was up 0.1 percent offsetting improvement noted in December collections. Estimated payments in individual income tax were flat, after a surge also noted in December.

Individual and corporate income tax refunds substantially exceeded forecast. This detracted from net available revenues.

January Gross General Revenues totaled \$552.5 million, an increase of \$22.6 million or 4.3 percent above last year and \$15.2 million or 2.8 percent above forecast.

January Individual Income Tax Collections totaled \$310.2 million, a decrease of \$0.8 million or 0.3 percent below last year and \$2.3 million or 0.7 percent below forecast. Individual withholding increased 0.1 percent compared to last year, after a larger gain in December.

January Individual Income Tax Refunds totaled \$34.3 million, an increase of \$13.7 million above last year and also \$11.8 million above forecast.

January General Revenue Corporate Income Tax Collections totaled \$26.1 million, an increase of \$14.5 million or 125.0 percent above last year and \$14.3 million or 121.5 percent above forecast. Corporate income tax filings are a volatile component of general revenue.

January Sales and Use Tax Collections totaled \$180.8 million, an increase of \$8.6 million or 5.0 percent above last year. Sales tax collections were \$3.0 million or 1.7 percent above forecast.

SPECIAL REVENUES OF NOTE

Special Corporate Income Taxes. Each month \$2.13 million (\$25.6 million total in FY 2012) in corporate income tax collections goes to *special* revenues. These revenues are not included in *general* revenue totals. They are allocated to the WorkForce 2000 Fund, which provides for the upgrading of the post-secondary technical colleges of the state.

Soft Drink Tax (Medicaid Program Trust Fund). Year-to-date soft drink tax collections totaled \$28.7 million, an increase of 0.2 percent above last year.

Conservation Fund. The state *general* sales and use tax rate is 4.5%. Effective July 1, 1997, Act 156 of 1997, the Conservation Fund Act, levied a one-eighth of one-cent increase in the sales and use tax rate as a *special* revenue. After deductions, the remaining money is distributed to the Game Protection Fund (45%), the Department of Parks and Tourism (45%), Arkansas Department of Heritage (9%), and the Keep Arkansas Beautiful Fund (1%). Year-to-date collections were \$37.3 million, an increase of \$0.8 million or 2.2 percent above last year.

Property Tax Relief Trust Fund. Acts 1 and 2 of the Second Extraordinary Session of 2000 levied a 0.5% increase in the sales and use tax rate effective January 1, 2001. This increase is *special* revenue dedicated to reimbursing Arkansas counties for the cost of homestead property tax credits created by Amendment 79 to the Arkansas Constitution. Effective with FY 2008, a portion of the 6-cent per gallon dyed diesel tax is also deposited to the Property Tax Relief Trust Fund to offset the revenue loss from exempting dyed diesel from sales tax. Year-to-date collections were \$138.0 million, an increase of \$1.1 million or 0.8 percent above last year.

Educational Adequacy Fund. Act 107 of the Second Extraordinary Session of 2003 increased the state sales and use tax rate from 5.125% to 6.0%, effective March 1, 2004. It also expanded the sales and use tax base to new services and increased the wholesale vending tax rate and decal fees, effective July 1, 2004. Act 94 increased the minimum corporate franchise tax and the tax rate, effective for calendar years beginning January 1, 2004. The additional revenues are deposited as *special* revenues to the Educational Adequacy Fund to be used to fulfill the financial obligations of the state to provide an adequate educational system. Effective with FY 2008, a portion of the 6-cent per gallon dyed diesel tax is also deposited to the Educational Adequacy Fund to offset the revenue loss from exempting dyed diesel from sales tax. Year-to-date collections were \$256.6 million, an increase of \$2.6 million or 1.0 percent above last year.

U.S. Summary: Global Insight, September 2011 Baseline

AR Forecast: Global Insight, September 2011 Baseline

ECONOMIC NOTES

Most Recent Estimate of GDP Growth

Gross Domestic Product (GDP) is a measure of the nation's overall output of domestically produced goods and services. Quarterly estimates of GDP are released on the following schedule: Advance estimates, based on preliminary and incomplete source data and BEA assumptions about the missing source data, are released in the first month after the end of the quarter. "Second" estimates (formerly called preliminary) and "third" estimates (formerly called final), which incorporate additional and revised source data, are released in the second and third months, respectively.

The U.S. economy increased at a 2.8% annual rate in the fourth quarter of 2011 according to the Commerce Department's "advance" estimate for GDP growth. In the third quarter, real GDP increased 1.8 percent. The Department noted that "The increase in real GDP in the fourth quarter primarily reflected positive contributions from private inventory investment, personal consumption expenditures, exports, residential fixed investment, and nonresidential fixed investment that were partly offset by negative contributions from federal government spending and state and local government spending. Imports, which are a subtraction in the calculation of GDP, increased."

Quarterly estimates of GDP since the first quarter of 2006, and the annualized growth rates implied by these estimates, are displayed in the graph below.

More detailed information about Gross Domestic Product may be found at the BEA's Web site at <www.bea.gov>.

Institute for Supply Management's Purchasing Managers' Index (PMI)

The Institute for Supply Management reported that the Purchasing Managers' Index increased from 53.1 in December to 54.1 in January. "The PMI registered 54.1 percent, an increase of 1 percentage point from December's seasonally adjusted reading of 53.1 percent, indicating expansion in the manufacturing sector for the 30th consecutive month. The New Orders Index increased 2.8 percentage points from December's seasonally adjusted reading to 57.6 percent, reflecting the 33rd consecutive month of growth in new orders. Prices of raw materials increased for the first time in the last four months. Manufacturing is starting out the year on a positive note, with new orders, production and employment all growing in January," reported Bradley J. Holcomb, CPSM, CPSD, chair of the Institute for Supply Management's Manufacturing Business Survey Committee.

The 50 percent mark is generally interpreted as the dividing line between growth and contraction in the manufacturing sector. According to the index, economic activity in the manufacturing sector expanded in January for the 30th consecutive month. The 42.6 percent mark is generally interpreted as the dividing line between growth and contraction in the overall economy. According to the index, the overall economy grew for the 32nd consecutive month. If the PMI for January is annualized, it corresponds to a 3.9 percent increase in real GDP annually.

The Purchasing Managers' Index is based on a nationwide survey of purchasing and supply executives in a variety of manufacturing industries. Membership of the Manufacturing Business Survey Committee is diversified by North American Industry Classification System (NAICS) code, based on each industry's contribution to gross domestic product (GDP). The survey gauges improvement or decline in areas such as new orders, production, employment, and inventories. The chart below tracks performance of the Purchasing Managers' Index since January 2006.

Labor Force Statistics, Arkansas and the U.S.

The U.S. Bureau of Labor Statistics reported that seasonally adjusted nonfarm employment for the nation increased by 243,000 in January. This follows a revised gain of 203,000 in December. In January, Construction employment increased by 21,000, while Manufacturing employment rose by 50,000. Wholesale Trade employment increased by 14,000 while Retail Trade employment rose by 10,500. Employment in Financial Activities fell by 5,000. Health Care added 30,900 jobs. Employment in the Government sector fell by 14,000. The national unemployment rate fell from 8.5 percent in December to 8.3 percent in January. The current rate is below the 9.1 percent rate in January 2011.

In Arkansas, the Department of Workforce Services reported that nonfarm payroll employment (not seasonally adjusted) decreased by 15,900 from December to a level of 1,148,200 in January. Trade employment fell by 5,300 (0 Wholesale, -5,300 Retail) on this seasonally unadjusted basis. Employment in Manufacturing decreased by 700. Information sector employment was unchanged. Employment in Educational & Health Services was unchanged, while employment in Leisure & Hospitality rose by 800. Government employment decreased by 6,500. The State's seasonally adjusted unemployment rate fell from 7.8 percent in December to 7.6 percent in January. The current rate is down from 8.1 percent in January 2011. The January state rate is 0.7 percentage points below the national rate compared to a 1.0 percentage point differential in January 2011.

Compared to January 2011, payroll employment in Arkansas is up by 3,900 in this preliminary estimate. The largest year-over-year gain of 3,900 occurred in Local Government. The sector with the largest percentage gain was Management of Companies at 4.3 percent. Manufacturing employment fell by 4,400 while Trade employment decreased by 100 (-500 Wholesale, +400 Retail).

SOURCE: Arkansas Department of Workforce Services

The graphs on the next page place Arkansas' employment growth patterns in a somewhat longer historical context. The upper graph shows the absolute level of nonagricultural employment in the state. The "actual" or unadjusted data show the seasonality of employment in the state, with sharp drops in employment occurring in January and July, while the "smoothed" data (12-month moving averages) reveal the underlying trends in employment.

The lower graph shows the percentage change in employment. The "actual" data represent the annual change from the same month one year ago to the current month. The "smoothed" data represent the annual change in the 12-month moving average. After accounting for seasonal factors, the annualized rate of employment growth in the state was -0.2 percent in January 2012. The data in these two graphs reflect the benchmark revisions made by DWS and BLS in March 2012 to the data for 2010 and 2011.

ARKANSAS NON-FARM PAYROLL EMPLOYMENT

ARKANSAS NON-FARM PAYROLL EMPLOYMENT CHANGE

The table below places Arkansas' employment growth in comparative national perspective. For the 12-month period ending in January 2012, Arkansas' employment growth rate of -0.2 percent ranked 48th in the nation. The Arkansas rate was below the national growth rate of 1.2 percent.

FINANCIAL INFORMATION SOURCES STATE OF ARKANSAS

FINANCIAL ORGANIZATIONS & MANAGEMENT

The following state organizations share responsibility for statewide financial management: The General Assembly, the Office of the Budget and the Office of Accounting of the Department of Finance and Administration, the Governor, the Treasurer, and the Division of Legislative Audit.

The General Assembly has responsibility for legislating the level of state services and appropriating the funds for operations of state agencies. The Office of Budget prepares the Executive Budget with the advice and consent of the Governor. The Office of Budget also monitors the level and type of state expenditures. The Accounting Division has the responsibility for maintaining fund and appropriation control and, in conjunction with the State Treasurer, has responsibility for the disbursement process. The Treasurer has responsibility for disbursement, bank reconciliation, and investment of state funds (with the advice of the State Board of Finance). The Division of Legislative Audit has responsibility for performing financial post-audits of state agencies.

BUDGET AND APPROPRIATION PROCESS

State agencies submit biennial budget requests to the Office of Budget of the Department of Finance and Administration. The Office of Budget prepares the Executive Budget based on estimates of general revenues as prepared by the Office of Economic Analysis and Tax Research of DFA. The Executive Budget contains the budget amount recommended by the Governor.

The General Assembly appropriates money after consideration of both the Executive Budget and the revenue estimate. The appropriation process begins in the joint House-Senate Budget Committee and then proceeds through both houses of the General Assembly. Legislative appropriations are subject to the Governor's approval or veto, including the authority of line-item veto.

The General Assembly also must amend the Revenue Stabilization Act to provide for an allotment process of funding appropriations in order to comply with state law prohibiting deficit spending. The Governor may restrict spending below the level of appropriations.

REVENUE STABILIZATION LAW

Act 750 of 1973, as amended, established the State's Revenue Stabilization Law. This law and related legislation govern the administration and distribution of State revenues.

Pursuant to the Stabilization Law, all general and special revenues are deposited into the General Revenue Allotment Account and the Special Revenue Allotment Account according to the type of revenue being deposited. From the General Revenues Fund in FY2012, 3.3% of all general revenues are first distributed to the Constitutional Officers

Fund and the Central Services Fund to provide support for the States' elected officials and their staffs and the Department of Finance and Administration.

The balance is then distributed to separate funds proportionately as established by the Stabilization Law. From the Special Revenue Fund in FY2012, 3.3% of all special revenues collected by DFA and 1.65% of all special revenues collected by other agencies are first distributed to provide support for the State's elected officials, their staffs, and DFA. The balance is then distributed to the funds for which the special revenues were collected.

Special revenues, which are primarily user taxes, are generally earmarked for the program or agency providing the related services.

General revenues are transformed into funds established and maintained by the Treasurer for major programs and agencies of the state in accordance with fund priorities established by the General Assembly.

According to the Stabilization Law, the General Assembly establishes three levels of priority for general revenue spending. Successive levels of appropriations are funded only in the event sufficient revenues have been generated to fully fund any prior level. Accordingly, appropriations made to programs and agencies are only maximum authorizations to spend. Actual expenditures are limited to the lesser of (1) moneys flowing into a program or agencies' fund maintained by the Treasurer or (2) the maximum appropriation by the General Assembly.

Because state revenues are not collected throughout the year in a pattern consistent with program and agency expenditures, a budget revolving fund, which receives interest earnings for State fund investments, has been established and is utilized to assure proper cash flow during any period.

The address is <http://www.dfa.arkansas.gov/offices/directorsOffice/Pages/fiscalNotes.aspx>.

**STATEMENT OF GROSS TAX COLLECTIONS
GENERAL, SPECIAL, AND TRUST REVENUES**

The statement of gross tax collections on the following pages reports only general and special revenues collected by the Revenue Division of the Department of Finance and Administration. Insurance premium taxes are collected by the Insurance Department and the corporate franchise tax by the Office of Secretary of State. The revenues from these two taxes are reported in Tables A and B. In addition to these two offices, general revenues are also collected by other offices, agencies, and commissions, such as the State Auditor, State Securities Board, et al., and are summarized under "Miscellaneous" collections in Tables A and B. A detailed listing of these revenue sources can be found in the *Arkansas Revenue Report* published monthly by the Bureau of Legislative Research, Office of Tax and Economic Policy (telephone # 682-1937).

The "Gross Receipts" line items reported on these statements include sales tax, use tax, beverage excise tax, 10% mixed drink tax, long term rental vehicle tax, residential moving tax, short term rental tax, short term rental vehicle tax, wholesale vending tax, and the gross receipts tax permit.
